created in the Umbrella Fund which are considered by the Investment Manager to be underpinned by secular growth trends. • The Fund invests at least two-thirds of its total assets in equity securities worldwide. The Fund's equity investments may include common stocks, preferred stocks and, on an ancillary basis, closed-ended real estate investment trusts ("REITS") and depositary receipts for any of those equity investments. Investments in REITS may not exceed 10% of the Fund's net assets. • As part of the Fund's investments in equity securities worldwide, the Fund may also invest up to 30% of its total assets in emerging markets companies including, but not limited to, certain eligible A-Shares via the Stock Connects. • The Fund may invest up to one-third of its total assets in other types of securities than those described above as well as in money market instruments, cash and cash equivalents. • On an ancillary basis, the Fund may also hold deposits at sight for up to 20% of its assets under normal markets circumstances. • The Fund may invest up to 10% of its net assets in undertakings for collective investment, including but not limited to, exchange traded funds that qualify as UCITS. • The Fund is unconstrained by industry, index, currency, geographical considerations or capitalization size and the Investment Manager aims to invest in companies whose shares are selling below the Investment Manager's estimate of intrinsic value. The Fund benefits from the French SRI label. • On an ancillary basis, the Fund may use derivatives for hedging purposes.	paragraph in the Prospectus for further information on features of the product.
Parties Involved	
WHO ARE YOU INVESTING WITH? • The Fund is a sub-fund of Natixis International Funds (Lux) I (the "Company"), an investment company qualified as a UCITS. • The Management Company is Natixis Investment Managers International • The Investment Manager is Thematics Asset Management. • The Depositary is Brown Brothers Harriman (Luxembourg) S.C.A.	Refer to MANAGEMENT AND ADMINISTRATION paragraph in the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? • You should note that the price of Shares of the Fund and any income from it may fall as well as rise and that you may not get back the full amount invested. • Past performance is not a guide to future performance. No guarantee or representation is made that the investment strategy will be successful and there can be no assurance that the investment objective of the Fund will be achieved.	Refer to the PRINCIPAL RISK FACTORS paragraph in the Prospectus for further information on risks of the product.
Market and Credit Risks	
You are exposed to Risk Relating to Equity Securities - Investments in equities tend to fluctuate more than investments in bonds. The price of equity investments may sometimes fluctuate quite dramatically in response to the activities and results of individual companies, as well as in connection with general market and economic conditions. You are exposed to Risk Relating to Emerging Markets - Investing in emerging markets may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. You are exposed to Risk Relating to Global Investing - International investing involves certain risks such as currency exchange rate fluctuations, political or regulatory developments, economic instability and lack of information	

transparency. Securities in one or more markets may also be subject to limited liquidity. You are exposed to Exchange Rate Risk - As the Fund's holdings may be denominated in currencies other than Singapore Dollars, foreign currency exchange rate movements are likely to influence the returns to investors in Singapore.																					
Liquidity Risks																					
Redemptions may only occur on Fund Dealing Days - Shares may only be redeemed on any Dealing Day.																					
Product Specific Risks																					
You are exposed to Risk Relating to Geographic Concentration - The Fund may concentrate its investments in companies in the U.S. and may underperform funds investing in other parts of the world when economies of its investment area are experiencing difficulty. You are exposed to Risks Relating to Smaller Capitalization Companies - Stocks of small companies may be particularly sensitive to unexpected changes in interest rates, borrowing costs and earnings, have wider price fluctuations and may be less liquid. You are exposed to Risk Relating to Large Capitalization Companies - Funds investing in large capitalization companies may underperform certain other stock funds during periods when large company stocks are generally out of favour. You are exposed to Stock Connect Risk – The Fund may invest via the Stock Connect which is subject to additional clearing and settlement constraints, potential regulatory changes as well as operational and counterparty risks. You are exposed to Risk Relating to Change in Law/ Tax Regimes - Changes to any of those laws and tax regimes, or any tax treaty between Luxembourg and another country, could adversely affect the value to the Fund of those securities. You are exposed to risk relating to ESG Driven Investments - Applying Sustainable ESG criteria to the investment process may lead the Investment Manager to invest in or exclude securities for non-financial reasons, irrespective of market opportunities available if assessed while disregarding Sustainable ESG criteria. You are exposed to risk relating to Real Estate Securities and REITs – The performance of a Fund investing in real estate securities will be dependent in part on the performance of the real estate market and the real estate industry in general. REITs are usually subject to certain risks, including fluctuating property values, changes in interest rates, property taxes and mortgage-related risks. Furthermore, REITs are dependent on management skills, are not diversified, and are subject to heavy cash flow dependency, risks of borrower default and self-liquidation.		Refer to the “Specific Risks” section in the Prospectus for additional details on risks of the product.
